**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

The following Management's Discussion and Analysis ("MD&A") of Chibougamau Independent Mines Inc. (the "Corporation" or "CIM") constitutes management's review of the factors that affected the Corporation's financial and operating performance for the fiscal year ended December 31, 2024. This MD&A was prepared in compliance with the requirements of National Instrument 51-102 – *Continuous Disclosure Obligations*. This discussion should be read in conjunction with the audited financial statements of the Corporation for the fiscal years ended December 31, 2024 ("FY 2024") and 2023 ("FY 2023"), together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Corporation's financial statements and the financial information contained in this MD&A are prepared in accordance with IFRS® Accounting Standards ("IFRS") as issued by the International Accounting Standards Board and interpretations of the IFRIC® Interpretations of the IFRS Interpretations Committee. In the opinion of management, all adjustments (which consist only of normal recurring adjustments) considered necessary for a fair presentation have been included. Information contained herein is presented as of April 24, 2025, unless otherwise indicated.

For the purposes of preparing this MD&A, management, in conjunction with the Board of Directors of the Corporation (the "Board"), considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of the Corporation's common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Further information about the Corporation and its operations is available on the Corporation's website at [www.chibougamaumines.com](http://www.chibougamaumines.com) or on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

This MD&A contains forward-looking information as further described in the "Cautionary Note Regarding Forward-Looking Statements" at the end of this MD&A as well as disclosure relating to properties in respect of which CIM has granted an option or in which CIM holds a royalty interest based on information publicly disclosed by the optionees or owners of these properties, as the case may be, as further described in the "Cautionary Statement Regarding Third-Party Information" at the end of this MD&A. Readers of this MD&A should also make reference to those risk factors identified or otherwise indirectly referenced in the "Risks and Uncertainties" section below.

### **Description of Business and Nature of Operations**

CIM is a natural resources exploration and development corporation with properties located in the area of Chibougamau, Québec. It currently holds twelve exploration properties.

In 2010, Globex Mining Enterprises Inc. ("Globex") acquired a significant number of properties in the Chibougamau Mining Camp. On September 10, 2012, Globex and CIM entered into an Arrangement which resulted in the reorganization of the Corporation's capital and the receipt of cash, certain investments held by Globex as well as the transfer of ten properties from Globex to CIM. Under a Plan of Arrangement, effective December 29, 2012, ten properties were transferred from Globex to CIM subject to a 3% Gross Metal Royalty ("GMR") in favour of Globex.

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

On October 3, 2016, Globex announced that the 3% GMR on a number of claims related to the Mont Sorcier project had been reduced to 1% but extended to claims acquired by CIM in 2016 and therefore applicable to the entire historical mineral deposit.

The Corporation's head office and principal business offices are located at 86, 14<sup>th</sup> Street, Rouyn-Noranda, Québec, J9X 2J1.

CIM is focused on finding economic mineral deposits and reviving production in the Chibougamau mining camp. It has established a short-term objective of defining resources compliant with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101") on selected target properties.

CIM's shares trade on the TSX Venture Exchange ("TSXV") under the symbol CBG, on the Stuttgart and Frankfurt exchanges under the symbol CLL1, as well as on the OTC Markets (USA) under the symbol CMAUF.

### **Economic Environment and Strategy**

At this time, there appears to be consensus that while volatile, commodity prices will increase over the near-term forecast period as a result of the lack of new production capacity coming on stream. Commodities are priced globally in U.S. currency, so their prices typically move in the opposite direction from the U.S. dollar.

During property acquisition, exploration and financial planning, management monitors metal demand and supply balances as well as price trends. In addition to monitoring metal prices, management also monitors financing activities in the junior mining sector as this represents the sector in which both current and potential partners generate the financing needed to complete option arrangements with CIM.

### **Financial and Operating Highlights**

#### **Corporate**

On June 20, 2024, 525,000 stock options with an exercise price of \$0.18 expired unexercised.

On September 13, 2024, the Corporation received 3,000,000 common shares with a fair value of \$33,374 from TomaGold Corporation ("TomaGold") in accordance with the Option Agreement for the West Block property. On December 18, 2024, the Corporation extended both the first anniversary \$50,000 cash and \$600,000 work expenditures requirements to June 30, 2025.

On December 23, 2024, the Corporation received 1,686,741 common shares with a fair value of \$14,222 from TomaGold to settle accounts receivable of \$33,735, which resulted in a loss on settlement of accounts receivable of \$19,513.

During FY 2024, the Corporation received a cash payment of \$90,000 from Cerrado Gold Inc. ("Cerrado Gold") related to the Mont Sorcier property.

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

Letter of Intent with TomaGold

On August 11, 2023, the Corporation entered into a letter of intent ("LOI") with TomaGold for a potential sale of the East Block to TomaGold. The East Block is comprised of 127 claims in McKenzie, Obalski, Roy and Lemoine Townships, Québec. Under the LOI, CIM undertook not to seek to enter into discussions or negotiations with any party other than TomaGold regarding the sale of the East Block for a period of 180 days from the date of the LOI, in consideration for which TomaGold was required to pay \$200,000 to CIM. During the 180-day period, TomaGold was entitled to carry out a due diligence review of the East Block.

An indicative term sheet forming part of the LOI provided that if CIM and TomaGold entered into a definitive agreement for the purchase and sale of the East Block, the purchase price would be \$11,000,000 in cash payments from TomaGold to CIM over a period of two years, including \$5,000,000 upon signing of the definitive agreement, and the issuance by TomaGold to CIM on the closing date of the sale of 10,000,000 common shares at a deemed price of \$0.05 per share. The LOI provided that TomaGold would grant a first-ranking hypothec to CIM as security for payment of the cash purchase price for the East Block. The LOI also provided that TomaGold would grant a 2% GMR on the East Block to each of CIM and Globex and that TomaGold would have the right to repurchase 0.5% of the 2% GMR held by CIM and Globex, respectively, for \$750,000 for each 0.5% purchased.

On September 15, 2023, the Corporation received a cash payment of \$200,000 from TomaGold.

On February 8, 2024, the Corporation announced that it had extended the "Option to Purchase" by 45 days to allow completion of due diligence by TomaGold and for TomaGold to secure financing to acquire the Corporation's East Block of advanced copper-gold properties. On April 12, 2024, the date to finalize the transaction was further extended to April 30, 2024 and the purchase price was adjusted upward by \$500,000.

On August 2, 2024, the Corporation announced that TomaGold and the Corporation had mutually agreed to terminate the LOI as the parties were unable to reach agreement on final terms that were commercially acceptable to each of them in order to move forward with the East Block option.

**Trends and Economic Conditions**

Management regularly monitors economic conditions and estimates their impact on the Corporation's operations and incorporates these estimates in both short-term operating and longer-term strategic decisions.

Material uncertainties may arise that could influence management's going concern assumption. Management cannot accurately predict the future impact of the following among many other things:

- Global gold and copper prices;
- Demand for gold and copper and the ability to explore for gold and copper;
- Labour availability and supply lines;
- Availability of government supplies, such as water and electricity;
- Purchasing power of the Canadian dollar;

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

- International trade disputes sparked by tariffs imposed by the United States and other countries in response thereto; and
- Ability to obtain funding.

Apart from these and the risk factors noted under the heading "Risks and Uncertainties", management is not aware of any other trends, commitments, events or uncertainties that would have a material effect on the Corporation's business, financial condition or results of operations. See "Cautionary Note Regarding Forward-Looking Statements" below.

**Outlook**

Management believes that the Corporation holds first-class properties and has access to the human and corporate resources necessary to advance the exploration and development of our Chibougamau Mining Camp Properties.

In our forward planning for 2025, we recognized that economic uncertainties and market challenges are factors that need to be considered.

**Potential Transactions**

The Corporation routinely evaluates various business development opportunities that could entail mergers, acquisitions, options, trades and/or divestitures.

of \$52,395. This was offset by revenues of \$30,000, interest income of \$1,322, other income of \$48,026 and income tax recovery of \$100,738.

### **Investment Strategies and Oversight**

The Corporation generally acquires and holds investments with a medium to long-term view, on the basis of perceived value and growth opportunities and the ability of management teams to effectively execute business plans. The Corporation manages its investment portfolio in-house, relying upon the broad industry knowledge and expertise of management to identify and evaluate investment opportunities and monitor the investee companies on an on-going basis.

Investment performance is monitored via available market data (including continuous disclosure made by the investees that are public companies) and contact with investee management. Monitoring may also include involvement on the Board of Directors of an investee, where the size of the investment or other factors so warrant.

The Corporation's exit strategies include mergers or the achievement of other significant milestones for its investee companies but may also involve otherwise timely dispositions of the securities in the secondary market, if and when warranted, and receipt of third-party bids for the securities which are beneficial to the Corporation, in the circumstances.

Notwithstanding the foregoing, the Corporation may pursue a particular investment or series of investments that may diverge from these strategies from time to time, where suitable opportunities present themselves.

### **Environmental Contingency**

The Corporation's exploration activities are subject to various laws and regulations relating to the protection of the environment. These environmental regulations are continually changing and are generally becoming more restrictive. As of December 31, 2024, the Corporation does not believe that there are any significant environmental obligations requiring material capital outlays in the immediate future.

### **Off-Balance Sheet Arrangements**

As of the date of this MD&A, the Corporation does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Corporation including, without limitation, such considerations as liquidity and capital resources that have not previously been discussed.

2024-December 31	30,000	(64,627) <sup>(8)</sup>	(0.00)	(0.00)	560,533

<sup>(1)</sup> Net loss of \$245,796 principally relates to exploration and evaluation expenditures of \$84,743, professional fees and outside services of \$7,274, administration expenses of \$6,005, transfer agent and filing fees of \$3,136, management services of \$20,338 and share-based compensation of \$139,451. This was offset by interest income of \$22 and income tax recovery of \$15,129.

<sup>(2)</sup> Net loss of \$78,323 principally relates to exploration and evaluation expenditures of \$20,939, professional fees and outside services of \$29,291, administration expenses of \$5,945, transfer agent and filing fees of \$9,497 and management services of \$16,983. This was offset by income tax recovery of \$4,332.

<sup>(3)</sup> Net income of \$463,436 principally relates to revenues of \$607,038, other income of \$10,000 and income tax recovery of \$8,903. This was offset by exploration and evaluation expenditures of \$43,029, professional fees and outside services of \$28,758, administration expenses of \$9,100, transfer agent and filing fees of \$4,451, management services of \$17,167 and decrease in fair value of investments of \$60,000.

<sup>(4)</sup> Net loss of \$310,929 principally relates to exploration and evaluation expenditures of \$271,589, professional fees and outside services of \$11,487, administration expenses of \$19,222, transfer agent and filing fees of \$10,277, management services of \$27,211 and decrease in fair value of investments of \$7,848. This was offset by income tax recovery of \$36,705.

<sup>(5)</sup> Net income of \$17,443 principally relates to increase in fair value of investments of \$80,810 and interest income of \$21. This was offset by exploration and evaluation expenditures of \$23,074, professional fees and outside services of \$8,123, administration expenses of \$5,287, transfer agent and filing fees of \$6,146 and management services of \$20,758.

(6) Net loss of \$76,465 principally relates to exploration and evaluation expenditures of \$16,506, professional fees and outside services of \$60,151, administration expenses of \$10,825, transfer agent and filing fees of \$3,351, management services of \$15,632 and decrease in fair value of investments of \$30,000. This was offset by revenues of \$60,000.

(7) Net income of \$93,853 principally relates to revenues of \$33,374, exploration and evaluation recovery of \$39,382 due to tax credits totaling \$43,503 received by CIM during the quarter and increase in fair value of investments of \$68,148. This was offset by professional fees and outside services of \$16,863, administration expenses of \$9,547, transfer agent and filing fees of \$4,026 and management services of \$16,615.

(8) Net loss of \$64,627 principally relates to exploration and evaluation expenditures of \$274, professional fees and outside services of \$18,373, administration expenses of \$5,892, transfer agent and filing fees of \$7,876, management services of \$23,174 and decrease in fair value of investments of \$56,271. This was offset by revenues of \$30,000 and professional fees and outside services recovery of \$18,373.

### **Results of Operations**

#### Three months ended December 31, 2024 compared with three months ended December 31, 2023

The Corporation's net loss totaled \$64,627 for the three months ended December 31, 2024, with basic and diluted loss per share of \$0.00. This compares with a net loss of \$310,929, with basic and diluted loss per share of \$0.01, for the three months ended December 31, 2023. The decrease in net loss was principally due to:

- Revenues increased to \$30,000 for the three months ended December 31, 2024 compared to \$nil for the three months ended December 31, 2023. During the three months ended December 31, 2024, the Corporation received a cash payment of \$30,000 from Cerrado Gold related to the Mont Sorcier property.
- Exploration and evaluation expenses of \$274 for the three months ended December 31, 2024 compared to an expense of \$271,589 for the three months ended December 31, 2023. The decrease in expense can be attributed to a decrease in exploration activity.
- Professional fees and outside services decreased in the three months ended December 31, 2024 to a recovery of \$18,373 compared with an expense of \$11,487 for the same period in 2023, primarily due to a reimbursement of legal fees from TomaGold. Professional fees and outside services consist of legal fees and audit and accounting fees.
- The decrease in fair value of investments for the three months ended December 31, 2024 was \$56,271 compared with a decrease in fair value of investments of \$7,848 for the same period in 2023. The change in fair value of investments was due to a change in fair value of marketable securities.
- The increase in loss on settlement of accounts receivable for the three months ended December 31, 2024 was \$19,513 compared with \$nil for the same period in 2023. During the three

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

months ended December 31, 2024, the Corporation received 1,686,741 shares from TomaGold (valued at \$14,222) to settle accounts receivable of \$33,735, which resulted in a loss of settlement of accounts receivable.

- Income tax recovery decreased in the three months ended December 31, 2024 to \$nil compared to income tax recovery of \$36,705 for the same period in 2023. This income tax recovery in 2023 was the result of the sale of tax benefits arising from the flow-through shares issued in FY 2022. The related flow-through liability was fully amortized in FY 2023 with the offsetting credit to income tax recovery.
- All other expenses related to general working capital purposes.

FY 2024 compared with FY 2023

The Corporation's net loss totaled \$29,796 in FY 2024, with basic and diluted loss per share of \$0.00. This compares with a net loss of \$171,612 with basic and diluted loss per share of \$0.00 for FY 2023. The decrease in net loss was principally due to:

- Revenues decreased to \$123,374 in FY 2024 compared to \$607,038 in FY 2023. During FY 2024, the Corporation received a cash payment of \$90,000 from Cerrado Gold related to the Mont Sorcier property and 3,000,000 common shares valued at \$33,374 from TomaGold related to the West Block. During FY 2023, the Corporation received a cash payment of \$500,000 and 6,000,000 common shares valued at \$107,038 from TomaGold related to the West and East Blocks.
- Exploration and evaluation expenditures of \$472 in FY 2024 compared to an expense of \$420,300 in FY 2023. The decrease in expense can be attributed to the Québec refundable tax credit of \$43,503 received during FY 2024 compared to \$nil during the same period in 2023 as well as a decrease in exploration activity.
- Professional fees and outside services decreased in FY 2024 to \$66,764 compared with \$76,810 in FY 2023, primarily due to lower corporate activity requiring external professional support services. Professional fees and outside services consist of legal fees and audit and accounting fees.
- Share-based compensation and payments decreased in FY 2024 to \$nil compared with \$139,451 in FY 2023. The decrease is due to nil stock options granted during FY 2024 compared to 1,800,000 during FY 2023. The Corporation expenses its stock options in accordance with the vesting terms of the stock options granted.
- The increase in fair value of investments in FY 2024 was \$62,687 compared with a decrease in fair value of investments of \$67,848 in FY 2023. The change in fair value of investments was due to the change in the fair value of marketable securities.
- The increase in loss on settlement of accounts receivable in FY 2024 was \$19,513 compared with \$nil in FY 2023. In FY 2024, the Corporation received 1,686,741 shares from TomaGold (valued at

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

\$14,222) to settle accounts receivable of \$33,735, which resulted in a loss on settlement of accounts receivable.

- Income tax recovery decreased in FY 2024 to \$nil compared to income tax recovery of \$65,069 in FY 2023. This income tax recovery in 2023 was the result of the sale of tax benefits arising from the flow-through shares issued in FY 2022. The related flow-through liability was fully amortized in FY 2023 with the offsetting credit to income tax recovery.
- All other expenses related to general working capital purposes.

The Corporation's total assets at December 30, 2024 were \$560,533 (December 31, 2023 - \$930,934) against total liabilities of \$28,823 (December 31, 2023 - \$369,428). The decrease in total assets of \$370,401 resulted from cash spent on operating costs and working capital. The Corporation has sufficient current assets to pay its existing liabilities of \$28,823 at December 31, 2024.

The Corporation's operations are subject to governmental laws and regulations regarding environmental protection. The environmental consequences are difficult to identify, and it is also a challenge to anticipate the impacts of deadlines.

### **Liquidity and Capital Resources**

At December 31, 2024, the Corporation had cash of \$387,909 (December 31, 2023 - \$839,882).

The Corporation's working capital (based on current assets minus current liabilities) was \$531,710 at December 31, 2024 (December 31, 2023 - \$561,506).

From management's point of view, the Corporation's cash of \$387,909 is adequate to cover current operating expenses for 2025.

In order to retain its existing portfolio of properties, management has estimated that the claims renewal costs for 2025 will be approximately \$10,150 and the exploration work commitments necessary to retain the existing portfolio of properties will be approximately \$1,200 in 2025.

See "Cautionary Note Regarding Forward-Looking Statements" below.

### **Cash Flows**

At December 31, 2024, the Corporation had cash of \$387,909. The decrease in cash of \$451,973 from the December 31, 2023 cash balance of \$839,882 was a result of cash used in operating activities of \$451,973. Operating activities were affected by adjustments for disposal of mineral properties for shares of \$33,374, increase in fair value of investments of \$62,687, loss on settlement of accounts receivable of \$19,513 and net change in non-cash working capital balances of \$345,629 because of an increase in accounts receivable of \$712, an increase in prepaid and deposits of \$4,312, a decrease in payables and accruals of \$298,034 and a decrease in related party payable of \$42,571.

### **Exploration Activities and Mining Properties**

The Corporation conducts exploration activities in compliance with "Exploration Best Practices Guidelines" established by the Canadian Institute of Mining, Metallurgy and Petroleum (CIM) standards with exploration programs planned and managed by "Qualified Persons" who ensure that "quality assurance and quality control" (QA/QC) practices are consistent with NI 43-101 standards.

On all projects, diamond drill core is marked by a geologist and subsequently split, with one-half of the core analyzed, in the case of gold, by standard fire assay with atomic absorption or gravimetric finish at an independent, registered commercial assay laboratory.

The second half of the core is retained for future reference, except in the case when a duplicate sample is collected for QA/QC purposes. In that case, the duplicate sample is collected as a sawn, quartered-core sample taken from the second half of the retained sample, and only a quarter of the core remains in the core tray for that particular interval.

Other elements may also be determined in an industry acceptable manner, for either geochemical trace signatures or high-grade metal content.

When discussing historical resource calculations available in the public domain regarding CIM's properties, CIM will include source, author and date, and cautionary language stating that:

- A qualified person has not done sufficient work to classify the historical estimate as current mineral resources or reserves;
- CIM is not treating the historical estimate as current mineral resources or mineral reserves; and
- The historical estimate should not be relied upon.

Exploration expenditures for FY 2024 totaled \$472 (FY 2023 - \$420,300). During FY 2024 and FY 2023, exploration and evaluation expenditures were incurred on the various projects as follows:

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**

Past Exploration and Future Plans

During the previous fiscal years, exploration expenditures, excluding Québec tax credits, have been as follows:

- Fiscal year ended December 31, 2014 - \$43,314
- Fiscal year ended December 31, 2015 - \$4,795
- Fiscal year ended December 31, 2016 - \$291,620
- Fiscal year ended December 31, 2017 - \$269,559
- Fiscal year ended December 31, 2018 - \$98,310
- Fiscal year ended December 31, 2019 - \$825,788
- Fiscal year ended December 31, 2020 - \$378,538
- Fiscal year ended December 31, 2021 - \$259,433
- Fiscal year ended December 31, 2022 - \$871,765

In FY 2023, CIM spent \$420,300 on exploration with expenditures of \$247,108 on Bateman Bay, \$42,285 on Berrigan South and Berrigan Mine, \$38,683 on Lac David Sud, and \$34,483 on Lac Chibougamau, respectively, with the remainder of \$57,741 spent on the other properties.

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

In FY 2024, CIM spent \$43,975 on exploration with expenditures of \$28,251 on Bateman Bay, \$2,719 on Berrigan South and Berrigan Mine, \$4,680 on Lac David Sud, and \$2,550 on Québec Chibougamau Goldfields, respectively, with the remainder of \$5,775 spent on the other properties. The Corporation recorded a resource tax credit of \$43,503, which results in a net exploration and evaluation expense of \$472 in FY 2024.

No field work was performed in FY 2024 on the Lac Chibougamau properties; the last field work was done in 2022-2023.

**Berrigan:** From October 12 to October 23, 2022, two drill holes totaling 891 meters were completed on the Berrigan property, testing extension at depth of the known mineralization. Drill hole BT-22-14 intersected sparse isolated mineralization from 167m to 277m downhole including 1.46% Zn, 21.6 g/t Ag and 0.03 g/t Au over 1.3m, 6.3% Zn, 52.0 g/t Ag and 0.19 g/t Au over 1.0m and 1.06% Zn, 9.8 g/t Ag and 0.37 g/t Au over 1.0m. Drill hole Bt-22-15 intersected several zones of mineralization from 135.7m to 207.9m. Better intersections are: 5.24% Zn, 14.57 Ag and 1.98 Au over 2.1m from 135.7 to 137.8 meters, 3.87% Zn, 26.6 g/t Ag and 0.41 g/t Au over 3.2m from 186.9 to 187.9 meters, and 5.37% Zn, 26.1 g/t Ag and 0.96 g/t Au over 3.4m from 199.6 to 203.0 meters. A report was completed for the drilling program.

**Bateman Bay:** Since 2013, exploration at Bateman Bay has focused on drilling the C-3 zone and discovering new targets on similar structures. Two drill holes were completed in 2023. The first drill hole, BJ-23-31, was planned to intersect the mineralization at some 30 meters below the deepest hole (BJ-20-27) intersecting the C-3 lens. Unfortunately, the hole was halted because the rods got stuck at 577m downhole, some 50 meters before the target. The second hole, BJ-23-32A, intersected 4.03 % Cu, 1.40 g/t Au, 16.01 g/t Ag, 150 ppm Co over 7.00m at level 150m between hole BJ-16-15 (3.63 % Cu, 0.82 g/t Au, 42.9 g/t Ag, and 163 ppm Co over 6.33m) and hole BJ-16-16 (3.60 % Cu, 1.72 g/t Au, 11.9 g/t Ag and 219 ppm Co over 12.5m).

**Lac Chibougamau:** From October 24 to November 21, 2022, eight drill holes totaling 2,776 meters were completed in the Hematite Bay area of the Lac Chibougamau property. Best results were reported in drill hole HB-22-19, drilled from the north shore of the bay at N135 and -60 degrees, returning 1.99% Cu and 0.4 g/t Au over 10m. Also, drill hole HB-22-20 returned 1.41% Cu and 0.49 g/t Au over 1.0m and drill hole HB-22-23 returned 2.81% Cu and 0.18 g/t Au over 1.44m. A report was completed for the drilling program.

**Malouf Bay, Simon Lake, David South Lake and Buckell Lake, Gwillim:** On August 25 and 26, 2022, CIM conducted a high-resolution airborne mag survey over the newly acquired Gwillim property in collaboration with Novatem.

During the summer and fall of 2023, exploration was completed on the Malouf Bay, David Lake South and Simon Lake properties. At Malouf Bay, out of five samples, one sample returned anomalous gold and zinc results (301 ppb Au, 1094 ppm Zn) and one sample returned an anomalous zinc result (1029 ppm Zn). At Simon Lake, out of three samples, one sample returned anomalous gold and zinc results (3.84 g/t Au, 1,429 ppm Zn) and one sample returned anomalous zinc results (1,143 ppm Zn) at the Chavigny showing. At David Lake South, old trenches were mapped and sampled. Out of some 60 samples, eleven samples returned anomalous copper results ranging from 0.10% Cu to 3.12% Cu including three samples also anomalous in gold with values ranging from 128 to 347 ppb Au. Reports were completed for assessment.

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

**General information:** The exploration expenditures for each of the properties are outlined in Note 11 to the annual audited financial statements for FY 2024.

On August 11, 2023, CIM entered into a definitive Option Agreement with TomaGold pursuant to which CIM granted TomaGold an option to acquire the West Block property, comprised of 99 claims in Barlow and McKenzie Townships, Québec.

Optioned and Royalty Property - Mont Sorcier Property

On October 3, 2016, CIM announced that it had optioned its Mont Sorcier iron/titanium/vanadium project in Roy Township, Québec, 18 km east of the Town of Chibougamau, to Vanadium One Iron Corp. (formerly Vanadium One Energy Corp.) ("Vanadium One"). On October 14, 2016, a final agreement was concluded. Under the agreement, Vanadium One agreed to:

- issue 2,750,000 Vanadium One common shares to CIM (the shares were issued on November 21, 2016 at a deemed price of \$0.175 per share),
- pay \$150,000 in cash after completing a financing for minimum gross proceeds of \$500,000 (payment was made on March 1, 2017),
- incur exploration expenses of \$1 million within 24 months, and
- grant a 2% GMR to CIM on all mineral production from the Mont Sorcier property.

At the same time, Globex announced that the 3% GMR on a number of claims related to the Mont Sorcier project had been reduced to 1% but extended to claims acquired by CIM in 2016 and therefore applicable to the entire historical mineral deposit such that Globex holds a 1% GMR and CIM a 2% GMR.

On January 9, 2019, Vanadium One earned a 100% interest in the Corporation's Mont Sorcier iron/titanium/vanadium property by meeting the \$1 million exploration expenditure requirement and paying CIM the cash and shares per the option agreement. The large Mont Sorcier iron/titanium/vanadium zone has very low titanium content in Davis Tube Magnetic concentrates. This is an important metallurgical advantage when treating and recovering vanadium from this type of deposit.

On April 23, 2019, Vanadium One released its first NI 43-101 Mineral Resource Estimate for the Mont Sorcier iron and vanadium project. Total Indicated Resources were calculated to be 113.5 million tonnes in the ground, with the potential to produce 35 million tonnes of concentrate grading 65.3% Fe and 0.6% Vanadium Pentoxide. Additional Inferred Resources were defined as 520.6 million tonnes, with the potential to produce 178.3 million tonnes of concentrate grading 64.4% Fe and 0.6% vanadium pentoxide.

On February 27, 2020, Vanadium One announced the results of its Preliminary Economic Assessment (PEA) at its Mont Sorcier iron and vanadium project, based upon its April 23, 2019 NI 43-101 Mineral Resources Estimate. PEA summary results included an after-tax net present value ("NPV") of C\$1.7 billion and an internal rate of return ("IRR") of 33.8%.

**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

On November 2, 2020, Vanadium One announced the completion of a 3,414 m drilling program at Mont Sorcier targeting the expansion of the current resource and delivery of a new Mineral Resource Estimate by Q1 2021.

On February 3, 2021, Vanadium One provided initial head assay results from its 2020 drill program consisting of ten holes totaling 3,414 m to define the eastern extension of the North Zone. A summary of assay results is presented in the table below.

Drill Hole Name	From (meters)	To (meters)	Length (meters)	%Fe2O3 Total	% Magnetite (Satmagan)	% V <sub>2</sub> O <sub>5</sub>

and MSN-20-14	582.8	598.0	15.2	33.9	24.9	0.22
2020 Total/Average grades			1245.4	35.6	27.8	0.27

On May 12, 2021, Vanadium One announced that it had enlisted the support of Glencore plc, one of the world's largest commodity traders, to aid in the development of the Mont Sorcier iron and vanadium project. The companies entered into a finance raising assistance agreement and a separate concentrate offtake agreement to support the ongoing development and the eventual construction and production of the Mont Sorcier iron and vanadium project.

On May 17, 2021, Vanadium One announced having significantly expanded mineral resources at its Mont Sorcier iron ore and vanadium project. Total Inferred Resources for both the North Zone and South Zone were estimated at 953.7 Mt grading 32.8% magnetite, with the potential to produce 313 Mt of magnetite concentrate grading 64% Fe and 0.6% vanadium pentoxide (V<sub>2</sub>O<sub>5</sub>). Total Indicated Mineral Resources remained unchanged and were estimated to be 113.5 Mt grading 30.9% magnetite, with the potential to produce 35.0 Mt of magnetite concentrate grading 65.3% Fe and 0.6% V<sub>2</sub>O<sub>5</sub>.

On June 7, 2021, Vanadium One announced that it was commencing an in-fill drill program at Mont Sorcier. The goal was to upgrade sufficient Inferred Mineral Resources to the Measured and Indicated Categories to support at least a 20-year mine life as the basis for a feasibility study to begin later in 2021 or early 2022. The drill program was comprised of up to 15,000 metres in both the North and South Zones.

On June 30, 2021, Vanadium One announced the filing on SEDAR of a Technical Report entitled "NI 43-101 Technical Report – Mineral Resource Estimate of the Mont Sorcier Project, Province of Québec,

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

Canada". The report, which has an effective date of May 6, 2021, was completed by CSA Global Consultants Canada Ltd, an ERM Company, an independent geological and mineral estimation firm with headquarters in Australia and offices in Canada.

On October 7, 2021, Vanadium One announced the results of the first five holes of the 2021 drill program located at the west end of the property in the North Zone returning an average of 190.1 meters grading 25.8% magnetite.

On October 12, 2021, Vanadium One announced a change of its corporate name to Voyager Metals Inc. ("Voyager").

On November 29, 2021, Voyager reported assay results from an additional five holes from its 2021 in-fill drill program.

On March 8, 2023, Voyager announced a proposed business combination with Cerrado Gold.

On May 29, 2023, Voyager announced the filing of an initial project description for the Mont Sorcier project to commence the federal permitting process.

On May 31, 2023, Voyager and Cerrado Gold announced the completion of their business combination.

On July 5, 2023, Cerrado Gold announced potential project finance by the UK Export Credit Agency of \$420,000,000 for its Mont Sorcier iron/vanadium deposit.

On October 18, 2023, Cerrado Gold announced that it had “completed the tender process for its Export Credit Agency (ECA) Supported Non-Recourse Project Financing and expects to complete the on-boarding and appointment process within the next few weeks.” Cerrado Gold has chosen an international bank to act as Mandated Lead Arranger (MLA) for the Mont Sorcier iron-vanadium project.

On March 1, 2024, Cerrado Gold announced positive metallurgical test results confirming the ability to produce High Purity, direct reduction iron (“DRI”) grade iron concentrates at its Mont Sorcier magnetite iron ore project held through its 100%-owned subsidiary Voyager. The metallurgical tests were the initial phase in determining the final flow sheet design for the feasibility study at Mont Sorcier targeted for later that year.

On April 9, 2024, the Corporation received a cash payment of \$60,000 from Cerrado Gold related to the Mont Sorcier property.

**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

On October 30, 2024, Cerrado Gold reported that funds received from the sale of its Monte Do Carmo project in Brazil would be used in part to "complete a feasibility study of our very robust Mont Sorcier Iron Ore Project".

On December 4, 2024, Cerrado Gold provided an update on the Mont Sorcier properties. Highlights were:

- Detailed metallurgical test work is ongoing and reaffirms production of DRI grade, 67%+ or better iron concentrate with combined silica and alumina below 2.5%;
- Work Programs initiated and DRA Global appointed to deliver an NI 43-101 Bankable Feasibility Study by the end of Q1 2026;
- 2022 PEA on Mont Sorcier provided an NPV<sub>8%</sub> of US\$1.6 billion for a 21-year mine life producing 5MT of iron concentrate per year (300,000 oz/Au equiv.) generating US\$348M per annum in cash flow based upon initial capex of US\$574M; and
- UKEF and TD Bank have agreed to sponsor 70% of project capital required, subject to customary conditions of Export Credit Agency funding.

On March 3, 2025, Cerrado Gold announced that the updated metallurgical test work supports the ability to produce 67% high purity, DRI grade concentrates at its Mont Sorcier iron ore project. Highlights are:

- Metallurgical test work on Master Composite reaffirms production of DRI grade iron concentrate with combined silica and alumina below 2.5%;
- DRI grade concentrate demand to grow at a compound annual growth rate (CAGR) of over 9.0% p.a. for the next decade according to industry forecasts;
- Enhanced economic magnetite iron recovery of 83%;
- Variability test work of the primary domains has commenced;
- Additional test work focused on equipment sizing is now ongoing; and
- Feasibility study targeted for Q1 2026.

CIM retains a 2% GMR on all iron and vanadium produced from the Mont Sorcier property.

West Block (Barlow and McKenzie Townships)

On February 12, 2025, TomaGold announced 2025 exploration campaign plans for its Chibougamau Camp projects including the West Block project optioned from CIM comprising 99 claims inside the Berrigan South, Berrigan Mine, Antoinette Lake, Elaine Lake and Gwillim properties.

In 2025, exploration will be focused on the Berrigan project and consist of 1) compilation, 2) 2D and 3D modeling with drill hole database at scale and using elevation model, 3) geophysics EM, IP and LIDAR surveys, 4) detailed surface mapping, 5) bulk sampling – 1 tonne sample from underground working of the deposit, 6) examining the possibility of open pit versus underground mining scenarios, leading to a feasibility study, and 7) drilling.

**Related Party Transactions**

(a) Related party payables

<b>Names</b>	<b>December 31, 2024 (\$)</b>	<b>December 31, 2023 (\$)</b>
Globex	3,368	45,939
<b>Total</b>	<b>3,368</b>	<b>45,939</b>

The Corporation is considered a related party with Globex as Jack Stoch serves as President and Chief Executive Officer and is a director of both corporations. In addition, Mr. Stoch holds a large number of common shares of both corporations through Jack Stoch Geoconsultant Services Limited, a company controlled by Mr. Stoch, and therefore can influence the operations of both corporations. The amount payable bears no interest, is without specific terms of repayment and is unsecured.

(b) Management services

<b>Names</b>	<b>Year Ended December 31, 2024 (\$)</b>	<b>Year Ended December 31, 2023 (\$)</b>
Globex Management Services (i)	13,308	13,161
Management compensation (ii)	62,871	68,538
<b>Total</b>	<b>76,179</b>	<b>81,699</b>

(i) Globex management services for the respective periods represents Globex's estimate of the specific costs related to performing these services in accordance with the Management Services Agreement between CIM and Globex.

(ii) Management compensation represents salaries and other benefits of the President and CEO as well as external services provided by the Chief Financial Officer ("CFO") and the Corporate Secretary. As at December 31, 2024, the balance due to the CFO and Corporate Secretary is \$7,630 (December 31, 2023 - \$9,630) which is included in payables and accruals due under normal credit terms.

No other related party transactions were incurred during FY 2024 and FY 2023. All related party transactions disclosed above were at the agreed amounts that approximate fair value.

**Financial Instruments**

**Capital risk management**

The Corporation manages its common shares, shares to be issued, contributed surplus, equity settled reserve and deficit as capital. Its principal source of cash is from the issuance of common shares. The Corporation's objectives when managing capital are to safeguard the Corporation's ability to continue as a

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

going concern while it pursues its objective of evaluating, enhancing the value and acquiring additional properties or business assets. The Corporation manages the capital structure and makes adjustment to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, CIM may attempt to issue new shares. The Corporation's overall strategy remains unchanged from 2023.

The Corporation's investment policy is to invest its short-term excess cash in low risk, highly-liquid short-term interest-bearing investments with maturities, selected to match the expected timing of expenditures related to continuing operations.

In order to facilitate the management of its capital requirements, the Corporation prepares annual expenditure budgets that are updated as necessary. The annual and updated budgets are approved by the Board. For capital management purposes, the Corporation has developed two objectives which are as follows:

- Retain cash as well as accounts receivable which are equal to or greater than the committed exploration expenditures; and
- Retain equity investments and debt instruments with a combined fair market value which are greater than twelve months of projected operating and administrative expenditures.

Based on the current cash position and exploration strategy, the Corporation will likely need additional capital resources to complete or carry out its exploration and development plans for the next twelve months.

The Corporation is not subject to any externally imposed capital requirements.

The fair value of the Corporation's payables and accruals and related party payable approximate their carrying value due to the short-term nature. The equity investments have been adjusted to reflect their fair market value at the year end based on market quotes. The Corporation's cash is recorded at Fair Value Through Profit and Loss (FVTPL).

The Corporation's financial instruments are exposed to certain financial risks including credit risk, liquidity risk, equity market risk and fair value measurements recognized in the statement of financial position.

**(a) Credit risk**

The Corporation had cash which totaled \$387,909 as at December 31, 2024 (December 31, 2023 - \$839,882). These funds are subject to a combination of the \$100,000 maximum guarantee per individual institution as provided by the Canadian Deposit Insurance Corporation, a federal Crown Corporation. The Corporation does not believe that it is subject to any significant concentration of credit risk. Cash and cash equivalents are in place with major Canadian financial institutions.

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

The maximum exposure to credit risk was:

	<b>December 31, 2024 (\$)</b>	<b>December 31, 2023 (\$)</b>
Cash	387,909	839,882
Investments	149,473	39,190
<b>Total</b>	<b>537,382</b>	<b>879,072</b>

**(b) Liquidity risk**

Liquidity risk represents the risk that the Corporation will not be able to meet its financial obligations as they fall due. The Corporation manages liquidity risk through its capital structure and by continuously monitoring actual and projected cash flows. The Corporation finances its exploration activities through flow-through shares, operating cash flows and the utilization of its liquidity reserves.

The Board reviews and approves the Corporation's operating and capital budgets, as well as any material transactions out of the ordinary course of business.

Contractual maturities of financial liabilities are as follows: payables and accruals, less than 90 days, related party liabilities, from future free cash flow.

**(c) Equity market risk**

Equity market risk is defined as the potential impact on the Corporation's earnings due to movements in individual equity prices or general movements in the level of the stock market.

The Corporation closely monitors the general trends in the stock market and individual equity movements, and determines the appropriate course of action to be taken.

The Corporation currently holds equity investments with a fair market value of \$149,473 (December 31, 2023 - \$39,190) and as result, a 10% increase or decrease would impact income and loss by \$14,947 (December 31, 2023 - \$3,919).

**(d) Fair value measurements recognized in the statement of financial position**

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 - fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

- Level 3 - fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

<b>December 31, 2024</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total financial assets at fair value</b>
Cash	387,909	nil	nil	387,909
Investments	149,473	nil	nil	149,473

<b>December 31, 2023</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total financial assets at fair value</b>
Cash	839,882	nil	nil	839,882
Investments	39,190	nil	nil	39,190

There were no transfers between level 1, level 2 and level 3 during the year.

### **Commitments and Contingencies**

The Corporation's operations are subject to governmental laws and regulations regarding environmental protection. The environmental consequences are difficult to identify and it is also a challenge to anticipate the impacts of deadlines.

At the year-end, management believes to the best of its knowledge that CIM is in conformity with all applicable laws and regulations. Restoration costs, if any, will be accrued in the financial statements and reflected in the statement of loss and comprehensive loss, if and when they can be reasonably estimated.

### **Share Capital**

As at the date of this MD&A, the Corporation has 61,065,536 common shares and 1,900,000 stock options outstanding, which results in fully-diluted common shares of 62,965,536.

### **Disclosure of Internal Controls**

Management has established processes to provide it with sufficient knowledge to support representations that it has exercised reasonable diligence to ensure that the financial statements (i) do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, and (ii) fairly present in all material respects the financial condition, results of operations and cash flow of the Corporation, in each case as of the date of and for the periods presented by such statements.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 - Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), the Venture Issuer Basic

**Chibougamau Independent Mines Inc.**  
**Management's Discussion & Analysis**  
**Year Ended December 31, 2024**  
**Dated: April 24, 2025**

---

Certificate filed by the CEO and CFO of the Corporation does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as such terms are defined in NI 52-109. In particular, the certifying officers filing such certificate are not making any representations relating to the establishment and maintenance of:

- (i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the Corporation in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- (ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

The Corporation's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in such certificate. Investors should be aware that inherent limitations on the ability of the Corporation's certifying officers of a venture issuer to design and implement, on a cost effective basis, DC&P and ICFR may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports required to be provided under securities legislation.

### **Risks and Uncertainties**

The Corporation, like all other mining exploration companies, is exposed to a variety of financial and environmental risks as well as operational and safety risks. It is also subject to risks related to other factors, such as metal prices and financial market conditions. The main risks which the Corporation is exposed to are as follows:

#### **(a) Financing risk**

The Corporation must periodically obtain new funds in order to pursue its activities. While it has always succeeded in doing so to date, there can be no assurance that it will continue to do so in the future.

The Corporation believes that the quality of its properties and their geological potential will enable it to obtain the required financing for their continued exploration and potential development.

#### **(b) Financial market risk**

Under its current business model as in part, a project generator, in addition to exploring for its own account, CIM acquires properties and attempts to option or sell properties to other junior mining companies or producers. In order for junior mining companies to satisfy their obligations with CIM under their option arrangements, in many cases, they must raise funds in the equity markets which currently are challenging.

**(c) Volatility of stock price and limited liquidity**

CIM's shares trade on the TSXV under the symbol CBG, on the Stuttgart exchange under the symbol CLL1, as well as on the OTC Markets (USA) under the symbol CMAUF.

CIM's common shares have experienced significant volatility in price and trading volume over the last several years. There can be no assurance of adequate liquidity in the future for CIM's common shares.

**(d) Permits and licenses**

The Corporation's operations may require permits and licenses from different governmental authorities. There cannot be any assurance that the Corporation will obtain all the required permits and licenses in order to continue the exploration and development of its properties.

**(e) Government laws and regulations**

The Corporation's operations and exploration activities are subject to the laws and regulations of federal, provincial and local governments in the jurisdictions in which the Corporation operates. These laws and regulations are extensive and govern prospecting, exploration, development, production, exports, taxes, labour standards, occupational health and safety, waste disposal, toxic substances, environmental protection, mine safety and other matters.

Compliance with such laws and regulations increases the costs of planning, designing, drilling, developing, constructing, operating, closing, reclaiming and rehabilitating mines and other facilities. New laws, regulations or taxes, amendments to current laws, regulations or taxes governing operations and activities of mining corporations or more stringent implementation or interpretation thereof could have a material adverse impact on the Corporation, cause a reduction in levels of production and delay or prevent the development of new mining properties.

The Canadian mining industry is subject to federal and provincial environmental protection legislation. This legislation sets high standards on the mining industry in order to reduce or eliminate the effects of waste generated by extraction and processing operations and subsequently emitted into the air or water.

Compliance with applicable environmental legislation and review processes, as well as the obtaining of permits, particularly for the use of the land, permits for the use of water, and similar authorizations from various governmental bodies increases the costs of planning, designing and drilling as well as exploration and operating activities.

Some of the Corporation's operations are subject to reclamation, site restoration and closure requirements. Costs related to ongoing site restoration programs are expensed when incurred. It is possible that the Corporation's estimates of its ultimate reclamation liability could change as a result of possible changes in laws and regulations and changes in cost estimates.

Failure to comply with applicable laws and regulations may result in enforcement actions thereunder, and may include corrective measures requiring capital expenditures, installation of additional equipment or remedial actions.

**(f) Aboriginal rights and duty to consult**

The Corporation operates and does exploration on properties which are subject to Aboriginal rights or titles. The Corporation, under its Corporate Social Responsibility program, and local laws and regulations, consults with First Nations about any impact of its activities on such rights, titles or claims, which may cause delays in making decisions or project start-ups. Further, there is no assurance of favourable outcomes of these consultations. The Corporation may have to face adverse consequences such as significant expenses on account of lawsuits and loss of reputation.

**(g) Environmental risks**

Environmental legislation is evolving in a way which will require stricter standards and enforcement, increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and increased responsibility for companies and their officers, directors and employees. At this time, it is not certain that these changes will not adversely affect the Corporation's operations. Compliance costs are expected to rise.

**(h) Title matters**

The staked mining claims in which the Corporation has an interest have not been surveyed and, accordingly the precise location of the boundaries of the claims and ownership of mineral rights on specific tracts of land compromising the claims may be in doubt. Although the Corporation has taken all possible measures to ensure proper title to its properties and royalty interests, including filing of necessary documents and payments to local regulatory authorities, there is no guarantee that the title of any of its properties will not be challenged.

The provincial governments are currently working to convert mining claims to map-designated cells, which may mitigate this risk.

**(i) Metal prices**

Even if the exploration programs of the Corporation are successful, some factors out of the Corporation's control may affect the marketing of the minerals found. World-wide supply and demand for metals determines metal prices which are affected by many factors including international, economic and political trends, inflation expectations, exchange rate fluctuations, interest rates, global and regional consumption levels, speculative activities and worldwide production levels. The effects of these factors cannot be precisely predicted.

**(j) Key personnel**

The management of the Corporation rests on some key personnel and mostly on its President and CEO. The loss of the President and CEO could have a negative impact on the development and the success of the Corporation's operations.

**(k) United States Tariffs and Retaliatory Tariffs**

In early 2025, the new U.S administration applied tariffs on a variety of imports, including certain imports from Canada. In response, Canada has applied tariffs on certain imports from the United States. The international trade disputes sparked by the tariffs imposed by the United States and other countries in response thereto, including a further escalation in tariffs, retaliatory tariffs, and/or the withdrawal from, or changes to, international trade agreements, are expected to have a negative impact on the Canadian and global economy and could adversely affect the Corporation's financial condition. In addition, general uncertainty regarding possible future tariffs, international trade disputes and restrictive trade policies may have a negative impact on the Canadian and global economy and adversely affect the Corporation's financial condition.

**Cautionary Note Regarding Forward-Looking Statements**

This MD&A contains certain "forward-looking information" as defined in applicable securities laws (collectively referred to herein as "forward-looking statements"). These statements relate to future events or the Corporation's future performance. All statements other than statements of historical fact are forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "budgeted", "scheduled", "estimates", "continues", "forecasts", "projects", "predicts", "intends", "anticipates" or "believes", or variations, or the negatives, of such words and phrases, or statements that certain actions, events or results "may", "could", "would", "should", "might" or "will" be taken, occur or be achieved. The forward-looking statements in this MD&A speak only as of the date of this MD&A or as of the date specified in such statements. The following table outlines certain significant forward-looking statements contained in this MD&A and provides the material assumptions used to develop such forward-looking statements and material risk factors that could cause actual results to differ materially from the forward-looking statements.

**Chibougamau Independent Mines Inc.**

Inherent in forward-looking statements are risks, uncertainties and other factors beyond the Corporation's ability to predict or control. Please also make reference to those risk factors identified or otherwise indirectly referenced in the "Risks and Uncertainties" section above. Readers are cautioned that the above chart does not contain an exhaustive list of the factors or assumptions that may affect the forward-looking statements contained in this MD&A, and that the assumptions underlying such statements may prove to be incorrect. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this MD&A.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Corporation's actual results, performance or achievements to be materially different from any of its future results, performance or achievements expressed or implied by forward-looking statements. All forward-looking statements herein are qualified by this cautionary note. Accordingly, readers should not place undue reliance on forward-looking statements. The Corporation undertakes no obligation to update publicly or otherwise revise any forward-looking statements whether as a result of new information or future events or otherwise, except as may be required by law. If the Corporation does update one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those or other forward-looking statements, unless required by law.

**CAUTIONARY STATEMENT REGARDING THIRD-PARTY INFORMATION**

The disclosure in this MD&A relating to properties in respect of which CIM has granted an option or in which CIM holds a royalty interest such as a GMR and the operations on such optioned and royalty properties is based on information publicly disclosed by the optionees or owners of these properties, as the case may be, and information or data available in the public domain. None of this information or data has been independently verified by CIM. As an optionor of properties or holder of royalties in properties, CIM generally has limited access, if any, to such properties. CIM may from time to time receive operating information from the optionees and owners of the properties, as the case may be, which it is not permitted to disclose to the public. Therefore, in preparing disclosure pertaining to the properties in respect of which CIM has granted an option or holds a royalty interest and the operations on such properties, CIM is dependent on information publicly disclosed by the optionees or owners of these properties, as the case may be, and information or data available in the public domain and generally has limited or no ability to independently verify such information or data. Although CIM has no knowledge that such information or data is incomplete or inaccurate, there can be no assurance that such third-party information or data is complete and accurate. Additionally, some information or data publicly reported by optionees or owners, as the case may be, may relate to a larger property than the area covered by the option granted or royalty held by CIM.
